

GreenTek OUTBOUND – 1 Gallon \$40.95

Organic pesticide repels and suppresses parasitical infestation and insect control problems. Provides protection to all Green growing arenas...

Product Information

- Organic pesticide repels and suppresses parasitical infestation and insect control problems. Provides protection to all green growing arenas.
- An extremely efficient and cost effective alternative to toxic chemical insect controls.
- An organic, non-toxic insect control derived from powerful botanical extracts that are top performers in the sustainable green industry.
- Uniquely combines biologicals, sucrose and complex carbohydrates to increase plant strength, energy and phyto-defense systems.
- Naturally formulated to repel and suppress parasitical infestation, reduce crop and plant damage.
- Designed to strengthen plants and create protective barriers to insect damage without upsetting the beneficial insect ecosystem.
- The promotion of sucrose production, or high Brix levels, stimulates the metabolic activity and phyto-defense or immune system of plants.
- The ingredients that formulate GreenTek Outbound™ are approved by the EPA, Section 25b, for insecticide use.
- When used as directed is harmless to animals, trees, crops and ground water.
- Spray 1-2 ounces of Outbound mixed with each gallon of water. See label for additional application rates.
