

GreenTek TOTAL - 1 Gallon \$27.95

The world's best selling organic and beyond liquid fertilizer our proprietary fermentation. An all inclusive nutrient solution providing total high energy to all crops, plants, and other growing green areas.

Product Information

- This a high tech, multi-functional blend that includes soil biological and micro-nutrients, coral calcium, with over 70 minerals, budding and flowering cold ocean seaweed, molasses, high folic and molecular structured humic acid, liquid fish, with high value added natural soil biological (Bios) and more!
- Brings depleted soils back to life and contains high energy biological components that reduce nitrogen and phosphate input and costs for increased stability to crops.
- Makes available NPK's that are lost or bound in the soil.
- Very cost effective and proven to build strong and healthy turf, plants, crops, gardens, nurseries, golf courses, fruits, and all green areas.
- Highly concentrated and made to mix with water.
- Example: 1 gallon of total can be applied on up to 32,000 square ft. of turf. See label for additional application rates.
- Good For: Nursery and greenhouse, foliage, soil, growing media, vegetables, flowers, fruits, berries, row crops, composting, root dip, lawn, turf, golf courses, extended shelf life, yield, and commercial agriculture.
