

People ask us all the time

What Is It?

- * It's a business system that can give you a substantial secondary income without affecting your current job or income. Once built...you have the option of replacing your JOB with residual income in the form of weekly checks in the mailbox.
- * It's similar to a Franchise but operates from home using the Internet and the world's largest online shopping site.
- * Most people incorporate their business around their jobs to earn a part time income at first. Simply continue to build until your Business Income surpasses the income you have with your job...then you have a choice !
- * A system for entrepreneurs to create additional income.
- * The world's largest shopping site where our parent company helps us earn income from over 3500 stores they have partnered with.
- * It's a way to give average people an income from doing things they are already doing and buying.

What Do We Do?

- * We help people setup their own business to earn a professional income from their home office part time.
- * We help people develop their own internet business so they can earn significant income part-time just like we do.
- * We teach you how to earn a percentage (%) on sales of products that move through the Internet.
- * We show you how to get paid for shopping online to create an ongoing income.
- * We have partnered with the fastest growing Web Portal on the Internet where people are developing backup incomes to help themselves in this economic down-turn.
